

ArcticChill 108

Precision Meets Simplicity

Quality assured cooler with a superior dispense height to cater for refilling sports bottles. The 108 is a cost effective and reliable chilled only cooler, which is why it is one of our most popular machines. Built for durability and straightforward operation, we're confident your customers will love it.

- 29cm dispense height
- 35ltrs/h of chilled water
- Solenoid dispense button for easy operation
- High capacity direct chill cooler.
- Overflow kits & mains drainage options available
- Add our cowlings & wall brackets
- Traditional AA cooler design
- Easy to maintain and built to last

Accessories

Installation Rail & Filter

Includes compression fitting, 1-micron green filter, water block, copper pressure reducing valve & non-return valve.

Klaran UVC LED

Protects direct chill water coolers from bacteria, viruses & other pathogens providing point of dispense protection. Available as factory fitted or for self installation.

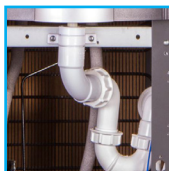

Flood Guard

A closed inlet solenoid which only opens to allow water into the cooler during dispensing. Remaining closed when not in use to protect the cooler against leaks.

Mains Drainage

Connect the drip tray to mains drainage. Can also be supplied with pumped waste if mains drainage is not available.
